

Donato Select Vodka is made with the finest European grains, it has a pleasant light taste and palatable aroma. The secret to being the envy of the world amongst all craft vodkas is the natural "luxé class" ingredients.

We use a secret blend of wheat rye and barley to create the perfect balance of flavor that produces the bold flavor that sets it apart from other vodkas. Ukrainian vodka is regarded as the finest in the world, as no other region has the combination of fertile agricultural resources and pristine water. These factors combined with a centuries old tradition of craftsmen passing down their knowledge from generation to generation has made Ukrainian vodka the world standard. The Ukraine possesses a significant amount of rich fertile black soil known as "chornozem", the amount of chornozem in Ukrainian fields represents roughly 30% of the world's reserves.

The Ukraine's favorable geographic location which places it in a temperate continental climate zone allows for the cultivation of the finest grains for growing vodka in the world, known as "winter grains", so named for their unique characteristic of germinating in the fall. This type of grain is ideal to use in the distillation of Vodka, as it's characteristics lend itself to a lighter body while maintaining its full complex flavor. Our specialist uses pristine mountain mineral water from the Carpathians Mountains .

Our water has the perfect balance of physical and chemical properties for the distilling of vodka. For transparency and purity our technicians uses a unique 5 stage water purification system with state of the art filters that filters the water with the help of silicon and crystal rock. We use this method to simulate natural filtration processes, as to not introduce chemicals or other adulterants. In addition for a smooth finish we distilled our product 5x times.
